

## Strictly Necessary Cookies

This type of Cookie allows you to move around our Services more freely and securely. For example, they collect session ID and user authentication information, which allows registered users to perform multiple actions within the same Service visit without having to repeatedly re-enter log-in details each time they navigate to a new webpage or perform a new function. These Cookies also help ensure that you can access registered user-only pages, load web pages faster, and improve overall Service performance, like being able to easily share content.

"Secure" and "True" means those cookies are sent over a secure, HTTPS connection.

"Http" and "True" means those cookies are used over HTTP.

"Session" and "True" means those cookies are removed when the browser is shut down.

"Login" and "True" means those cookies are used to log you in or keep you logged in.

## Performance Cookies

This type of Cookie tracks behavior on our Services, such as counting the number of visitors, how they move around our Services (e.g., which pages they visit and whether they experience any errors). The information collected by these Cookies is used only to help us improve our Services, better understand user interests, and measure the effectiveness of our advertising generally.

"Secure" and "True" means those cookies are sent over a secure, HTTPS connection.

"Http" and "True" means those cookies are used over HTTP.

"Session" and "True" means those cookies are removed when the browser is shut down.

"Login" and "True" means those cookies are used to log you in or keep you logged in.

## Functionality Cookies

This type of Cookie allows us to manage and control variations of Services and provide enhanced services, like being able to watch a video or comment on a blog. Splunk also uses this type of Cookie to collect information regarding your preferences on our Services, including your preferences for language, currency, text size, fonts, and any other parts of our Services that are customizable.

"Secure" and "True" means those cookies are sent over a secure, HTTPS connection.

"Http" and "True" means those cookies are used over HTTP.

"Session" and "True" means those cookies are removed when the browser is shut down.

"Login" and "True" means those cookies are used to log you in or keep you logged in.

## Additional Third-party Providers and Their Services

Below are additional third-party managed services used in connection with Splunk's website to help tailor offers and target advertising to you based on your activities and likely interests. These services do so by comparing hashed (pseudonymized) information about you from Splunk with hashed (pseudonymized) information about you that those third parties hold.

"Secure" and "True" means those cookies are sent over a secure, HTTPS connection.

"Http" and "True" means those cookies are used over HTTP.

"Session" and "True" means those cookies are removed when the browser is shut down.

"Login" and "True" means those cookies are used to log you in or keep you logged in.

Third Party
