

Splunk Education

Basic Subscription Datasheet

By purchasing the Basic Subscription, everyone in your organization can be trained to execute efficient searches and create sharable knowledge objects. For a whole year, anyone with a valid @company.com domain can register for the 22 eLearning courses included in the subscription.

eLearning Courses

The subscription is via the industry leading blended-learning delivery method. This offers students the flexibility to take training at a time and place convenient to them, with the ability to start learning immediately following registration.

- **eLearning for everyone.** Unlimited number of learners can register once for each eLearning course with quizzes (if applicable) within the one year term.
- **Ability to review content.** Learners can replay videos an unlimited number of times for 12 months following registration.
- **Hosted labs.** Learners can access the lab environment 3 times per course (if applicable) for 12 months following registration. Each lab session has a duration of up to 4 hours.
- **Proof of completion.** Learners who complete quizzes and labs within a single 4-hour session (if applicable) and videos will be issued a course completion certificate.
- **Based on learning paths.** Includes 22 eLearning courses focused on Search Expert and Knowledge Manager roles.

Please contact Splunk Education for pricing at Education_AMER@splunk.com.

Basic Subscription Courses

The learner has the option to complete one or two learning paths or they can register and complete the courses of their choice.
