

Splunk Education

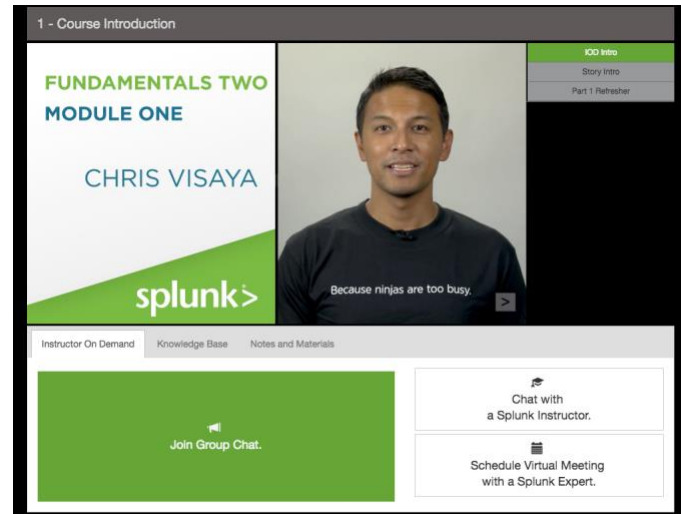

Instructor On-Demand (IOD) Subscriptions

Make sure that everyone in your organization can fully utilize Splunk by signing up for one of our subscriptions. For a whole year, anyone within a single @company.com domain can be successful by signing up for the instructor on-demand classes included for no additional cost.

Instructor On-Demand (IOD)

All subscriptions are via the industry leading Instructor On-Demand (IOD) blended-learning delivery method. This offers students the flexibility to take training at a time and place convenient to them, with the ability to start learning immediately following registration.

- **Real-time classroom engagement.** IOD combines Splunk’s award-winning training content with real-time, on-demand interactions with other students, as well as Splunk expert instructors.
- **Hosted labs and media content.** IOD comes complete with a live hosted Splunk environment for the hands-on lab activities, as well as an engaging mix of video, animation, demos and quizzes.
- **Chat with other students.** Students can chat directly with one another throughout the course using the built-in chat functionality.
- **Engage with Splunk instructors.** Students can engage directly with our Splunk expert instructors to ask questions and get answers real-time.
- **Deep dive on content.** Inquisitive students can also schedule a single one-on-one WebEx session with a Splunk expert instructor to dive deeper into a specific topic from curriculum during their 30 days access to the course.
