

# Splunk Certified Admin Track

This certification track prepares Splunk partners and customers to become Splunk Certified Admins. In addition to attending the listed classes that include lecture and hands-on labs, participants take part in two online tests.

## Courses for Admin Certification

### Splunk Fundamentals 1

This course teaches you how to search and navigate in Splunk to create reports and dashboards, both using Splunk's searching and reporting commands and using the product's interactive Pivot tool. Scenario-based examples and hands-on challenges will enable you to create robust searches, reports, and charts.

### Splunk Certified User Online Test

Once you've successfully attended and passed Splunk Fundamentals 1, you are eligible to take the Splunk Certified Power User online test. Contact Splunk Certification – [certification@splunk.com](mailto:certification@splunk.com) - to enroll for the test.

### Splunk Fundamentals 2

Picking up where Fundamentals Part 1 leaves off, this course focuses on more advanced searching and reporting commands as well as on the creation of knowledge objects.

Scenario-based examples and hands-on challenges coach you step-by-step through the creation of complex searches, reports, and charts. Major topics include using transforming commands and visualizations, filtering and formatting results, correlating events, creating knowledge objects, using field aliases and calculated fields, creating tags and event types, using macros, creating workflow actions and data models, and normalizing data with the Common Interface Model (CIM).

### Splunk Certified Power User Online Test

Once you've successfully attended and passed Splunk Fundamentals 2, you are eligible to take the Splunk Certified Power User online test. Contact Splunk Certification – [certification@splunk.com](mailto:certification@splunk.com) - to enroll for the test.

### Splunk Enterprise System Administration

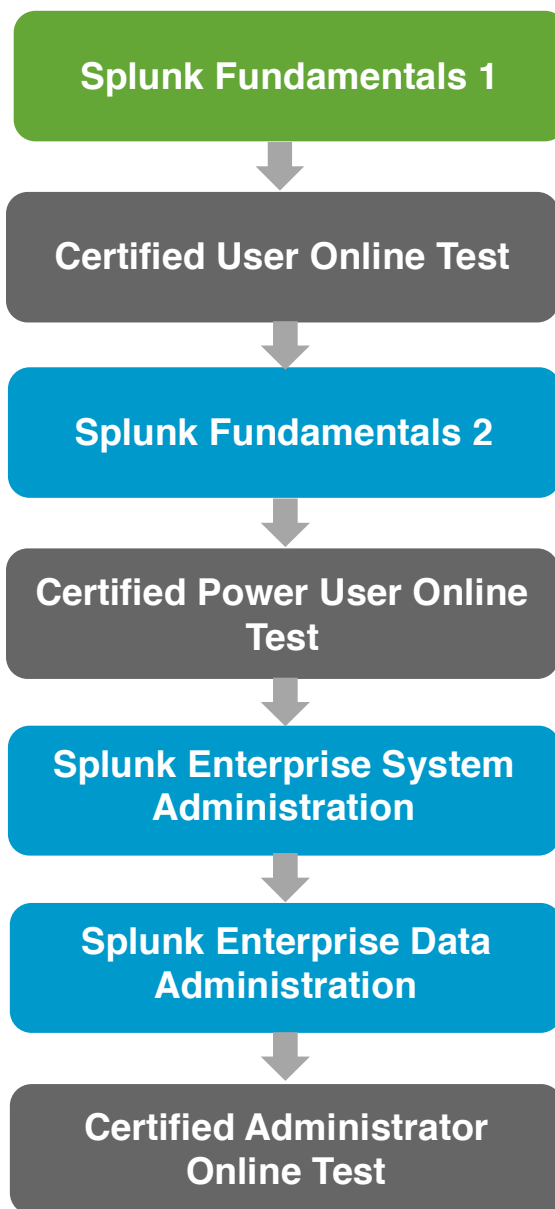

This 2 virtual day course is designed for system administrators who are responsible for managing the Splunk Enterprise environment. The course provides the fundamental knowledge of Splunk license manager, indexers and search heads. It covers configuration, management, and monitoring core Splunk Enterprise components.

### Splunk Enterprise Data Administration

This 3 virtual day course is designed for system administrators who are responsible for getting data into Splunk Indexers. The course provides the fundamental knowledge of Splunk forwarders and methods to get remote data into Splunk indexers. It covers installation, configuration, management, monitoring, and troubleshooting of Splunk forwarders and Splunk Deployment Server components.

### Splunk Certified Admin Online Test

Once you've successfully attended and passed the Splunk Administration courses, you are eligible to take the Splunk Certified Admin online test. Contact Splunk Certification – [certification@splunk.com](mailto:certification@splunk.com) - to enroll for the test.

## About Splunk

Splunk is software that indexes, manages and enables you to search data from any application, server or network device in real time.
