

Splunk Education: Splunk Academic Alliances

Did you know that Splunk practitioners reported earning 30% more than they did last year? That's why it's not just a job, it's a career.

Splunk Academic Alliances is launching free virtual college and university instructor training. After completion of the three-week course, Splunk-trained faculty can offer this foundational Splunk curriculum to their students as a vital add-on component of existing cybersecurity, data, AI/ML or business analytics courses.

Many academic institutions view it as important workforce development but also as a great way to specifically develop much-needed talent to help manage their own SOCs.

For the next six months get free:

- Instructor training,
- Hands-on labs,
- Certification exam vouchers,
- Cool Splunk t-shirts and more.

To join an informational webinar on becoming an Academic Alliances partner or have any other questions, please contact us: academicalliance@splunk.com

For any academic institution that wants access to our free elearning on foundational Splunk skills, please [sign up](#) so any students at that school can access the training (using their corresponding edu email address).

This training is authorized for academic/research use only and not for IT Operations or IT Staff training.

Q: Who is the audience for the Academic Alliances Program?

A: There are three audiences for the Academic Alliances Program:

Educators

- Easily expand your data analytics, cybersecurity, AI/ML and business analytics courses with easy-to-integrate free Splunk curriculum.
- Receive no-cost expert instructor training, instructor guides and hands-on labs to equip students with the latest tools.
- Enable your students to acquire the in-demand knowledge and skills that employers are seeking globally.
- Strengthen your students' career options in every field.
- Splunk believes that a well-trained instructor is a successful instructor. So regardless of where you are located, you will receive a state-of-the-art training experience.

Academic Students

- Add vital data analytics and cybersecurity skills to your academic transcript to prepare you to excel in that new job from the very start.
- Receive badges for completion of your courses.
- Earn certifications with free cert exam vouchers.
- Find work on our Splunk Pledge Job Board.

Individual Learners

- Broaden your career options with the in-demand skills that employers are seeking.
- Harness the data insights needed in every industry today.
- Earn free badges and get free cert exam vouchers to gain those all-important and highly-respected Splunk certifications.
- Discover data-enabled opportunities on our Splunk Pledge Job Board.
